

Back to Office Checklist

With most COVID-19 restrictions lifting, is your workplace technology ready for your on-site and hybrid employees? Run through this checklist. We can help you calibrate, upgrade or replace your malfunctioning technology.

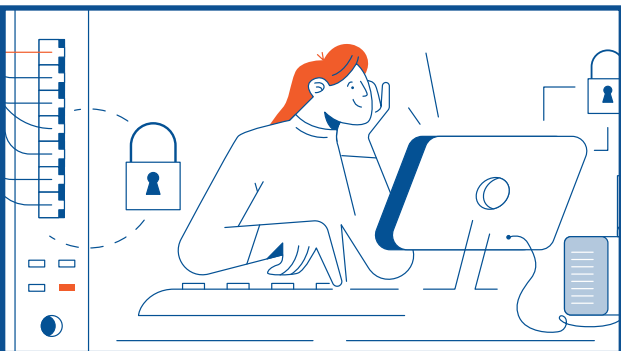

Multimedia & AV

- Board rooms, training and huddle spaces support hybrid collaboration
- Audio quality is up to par
- Touchscreen and control systems set up for web conferencing
- Overall system health and configuration check

Security & Access Control

- Sufficient video storage capacity available on servers
- Firmware updates on cameras
- Credentials in stock; door access functioning
- Staff refresher training on security systems

Voice, Data, Wireless

- Re-authenticate users for network access
- Ensure desktop phones are ringing in-office
- Health check for all BYOD technology
- Staff training on password changes and mobile network access
